

ALEXIS VALLE-BONILLA

Queens, NY | 631-836-5242 | avalle2821@icloud.com | github.com/avallotech | avallotech.github.io | linkedin.com/in/avallotech

PROFILE

Computer Systems student at New York City College of Technology (B.Tech expected May 2027), holding an A.A.S. in Computer Information Systems. Hands-on experience with virtualization (Hyper-V, VirtualBox, AWS EC2), networking (Cisco Packet Tracer, TCP/IP, VLANs, routing protocols), and network security fundamentals. Currently pursuing CompTIA A+ and Network+. Seeking an entry-level IT role in help desk, network support, systems administration, or security operations.

CERTIFICATIONS

CompTIA A+ (In Progress) **CompTIA Network+ (In Progress)**

Getting Started with Cisco Packet Tracer — Cisco Networking Academy Feb 2026

Information Security Basics — TEEX / FEMA, Dept. of Homeland Security (AWR-173) May 2021 | 1.3 CEUs

TECHNICAL SKILLS

Networking: Cisco Packet Tracer, TCP/IP, VLANs, routing protocols, network simulation, Wireshark, Nmap, tcpdump

Cloud & Virtualization: AWS (EC2, S3, VPC), Hyper-V, VMware, VirtualBox

Security Tools: Nmap, Wireshark, tcpdump, network monitoring, firewall concepts

Systems & Servers: Windows OS (administration, troubleshooting), Apache web server, PowerShell scripting

Programming: Python, JavaScript, HTML, CSS, SQL, Java, PowerShell

Software: MS Office Suite, Google Workspace, Visual Studio Code, Android Studio, Adobe Suite

Languages: English (fluent), Spanish (fluent)

PROFESSIONAL EXPERIENCE

Mobile Expert (Keyholder) | **T-Mobile**, Queens, NY March 2022 - Present

- Served as Keyholder responsible for store opening and closing procedures, daily cash handling, and inventory management.
 - Resolve escalated customer technical issues involving device configuration, account troubleshooting, and mobile service problems.
 - Advise customers on device selection and service solutions, consistently meeting sales targets through strong product knowledge.
 - Collaborate with team members to build sales performance and maintain store operations.
-

PROJECTS

Network Topology Design | Cisco Packet Tracer

- Designed and simulated multi-subnet LAN/WAN topologies with VLANs, inter-VLAN routing, and OSPF/RIP configuration.
- Configured routers, switches, and end devices; tested connectivity and diagnosed failures using Packet Tracer tools.

Apache Web Server Deployment | Linux / Windows

- Set up and configured an Apache HTTP server, including virtual hosts, directory permissions, and basic authentication.
- Tested server connectivity and served static web content in a local environment.

Virtualization Lab & Active Directory | Hyper-V, VirtualBox, Windows Server, AWS EC2

- Deployed virtual machines using Hyper-V and VirtualBox; installed Windows Server and promoted it to a Domain Controller.
 - Configured Active Directory Domain Services (AD DS) including user accounts, security groups, and role-based access control.
 - Provisioned AWS EC2 instances with security groups and remote access via SSH/RDP.
-

EDUCATION

Bachelor of Technology in Computer Systems *Expected May 2027*

New York City College of Technology (City Tech CUNY), Brooklyn, NY

Associate of Applied Science in Computer Information Systems *Awarded 2025*

New York City College of Technology (City Tech CUNY), Brooklyn, NY

ACHIEVEMENTS & ACTIVITIES

Computer Science Club Captain, Queens High School of Teaching 2017 - 2019

- Led coding teams using UC Berkeley's Snap! programming environment; secured first place in school-wide Hackathon.
- Completed AP Computer Science coursework and mentored fellow students in coding fundamentals.

Teaching Institute Secretary, Queens High School of Teaching 2017 - 2019

- Managed logistics and communications for students interning at local elementary schools.

Computer Systems Technology Colloquium (CSTQ) 2019

- Participated in City Tech colloquium on the future of technology and computing innovations.
